Bill Martin inquired about gate keys. Horty is getting keys made and will get them to the new members.

Good of the Order:

Horty suggested a form letter for new members with club information. Alan has one that he gave out when he was secretary that he will make available. Rob offered to post the Bylaws on the website. There were many comments during the meeting on how nice the website is turning out. Horty questioned if we could have members pictures on the website. There was discussion, but no action taken.

Dick Anderson presented Alan Piercy with a very nice plaque awarding him Life Membership in the LCRC for his service to the club.

Boy was that a surprise, to be honored like that for something I really enjoy doing. Alan

Horty inquired about the club signs, Dick reported they are in the building behind the freezer.

Bob Stedham has started working on a club history to post on the club website. He has contacted John Milton the first club president who said he thought the club was formed in 1986. Earle had some suggestion of former officers that Bob could contact. Earle was a charter member and felt the club was started earlier than 1986. Bob had brought his club jacket and gave us reason for each patch on it. Bob also related a story about his Great Uncle during WW1. Dick told Bob he had some club history that past president Jay Turkell had given him when he became president. He will drop it off to Bob. Bob talked about some of the places the club has flown since it was formed. He also mentioned the Round Robin Fun Fly Contest the club competed in with other area clubs.

Horty told us the story behind his latest airplane which should hold up pretty well to abuse.

Todd Belden showed very nice electric Cub he is building. Todd does excellent work, he is a carpenter and the wood work showed it.

Mike Green had his E Flite Super Airliner EDF on display, it is his winter project and he hopes to have it ready for spring.

There was a short discussion about servos. That was followed by a discussion of the problem of credit card fraud and ways to protect your self. Virtual Credit Card Numbers and Paypal temporary Mastercard numbers were a couple of possibilities mentioned.

Next Meeting January 12th 2009 at the IAM Hall.

The meeting was adjourned at 8:00 PM

Thanks to Alan Piercy for taking minutes this month!

Correspondence

We received this email from Sharron Evans concerning the Memorial Fly-In.

*Dear Alan & Vera
LCRC & James*

I want to sincerely thank you again for the touching memorial fly-in for Bob and Dick. So much work and love obviously was devoted to the event. The books were outstanding and the ones my family received for Dick will be a treasure forever. Thank you for the five copies and for the expense that incurred. The blank pages will be used for each of us to add special pictures of our own. I'm sure Dean has the most but I have some really funny ones. To James for loving the planes that were much larger than him but in time he would learn to control with the loving guidance of Papa. I want to thank each and every AMA member of the three clubs that he belonged to, that was a friend to my husband as he truly enjoyed the sport and your friendship over the years.

I know I will see you all again...Sharon
